

Solaris 55 • Avalon

Porto Rotondo

Year	2023
Cabins	3+1
Berths	6+1
Toilets	3+1
Category	A 7
Overall length	16.70 m
Overall beam	4.85 m
Keel draft	3.00 m
Total sail	176 mq
Engine	HP 75-110
Fuel capacity	380 lt
Water capacity	520 lt

The Boat

The Solaris 55 has been designed to satisfy the most demanding customers requiring performance sailing even with reduced crew. The most important qualities of the Solaris 55 include: High performance hull lines with the maximum beam astern. The high stability ratio and righting moment derives from the hull lines and the T-keel with a lead bulb and cast iron fin. The storage areas are very large including a dedicated liferaft pod on deck, gas bottle and tool lockers. The wide tender garage, with opening transom door and access from the deck. The internal layout enables lengthy periods at anchor without the need for supplies from harbour, thanks to galley compartments and equipment comparable to those of bigger yachts. All three cabins are fitted with ensuite bathrooms.

Equipment & Comfort

3 blades folding propellers	Air conditioning
Autopilot	Bimini top
Bow thruster	Cockpit table
Double wheel rudder	Eco/Log/Speedometer
Electric toilets	Folding table in saloon
